

NORTH DAKOTA
FFA ASSOCIATION

State FFA Officer Biography and Information

Name: Grant Anderson

Office: Parliamentarian

FFA Chapter: Harvey

Family: Paul & Vanessa (Parents) and Brian, Claire, Bethany, and Malachi (Siblings)

SAE: My SAE consists of a beef breeding and market herd, rented cropland entrepreneurship, Co-op placement, and work placement on the family farm. I began my SAE working with my older siblings and renting a small amount of acreage. I slowly expanded my acreage and increased the size of my herd. I took over management from my sisters and began working with my younger brother.

CDE/LDE: Ag Mechanics, Farm Business Management, Agronomy, Meats, Demonstration, Parli Pro, Extemporaneous Speaking, Land Judging, and Tractor Driving

Favorite FFA Memories: My favorite FFA memory was when I attempted to prank an unsuspecting member at the National FFA convention into thinking that I did not know who Taylor Swift was. Only for the member to recognize who I was, as they were from Max, ND. Ag Mechanics was a contest that taught me applicable skills that I could take back to my SAE, like welding and machinery knowledge. Working with my hands made the contest more enjoyable and made studying come easier.

Future Plans: I plan to attend North Dakota State University, majoring in Ag Economics. In the future, I plan to possibly return to the farm to raise cattle and crops, or work as a cattle or grain merchandiser.

About Me: I was raised on a farm and have owned cattle since I was 9 years old, beginning with bottle calves shown at the county fair. FFA is a family tradition and I could not wait to follow in my siblings footsteps and make my own path through FFA. I liked connecting with the state officers I had met through the years and I knew some other people who were running this year as well. I believe this officer position is a great way to serve the organization that provided me with so much and to cap off my FFA experience. A fun fact about me is that I have 41 first cousins!
